

A black and white photograph of a large industrial food processing facility. The scene is filled with stainless steel equipment, including large cylindrical tanks, complex piping systems with numerous valves and gauges, and conveyor belts. In the background, there are more machines and a large windowed area. The foreground features a prominent vertical tank and a series of horizontal rollers or conveyors. The overall impression is one of a modern, large-scale manufacturing environment.

Technology

We developed specific software for design new plants or modernization of existing one.

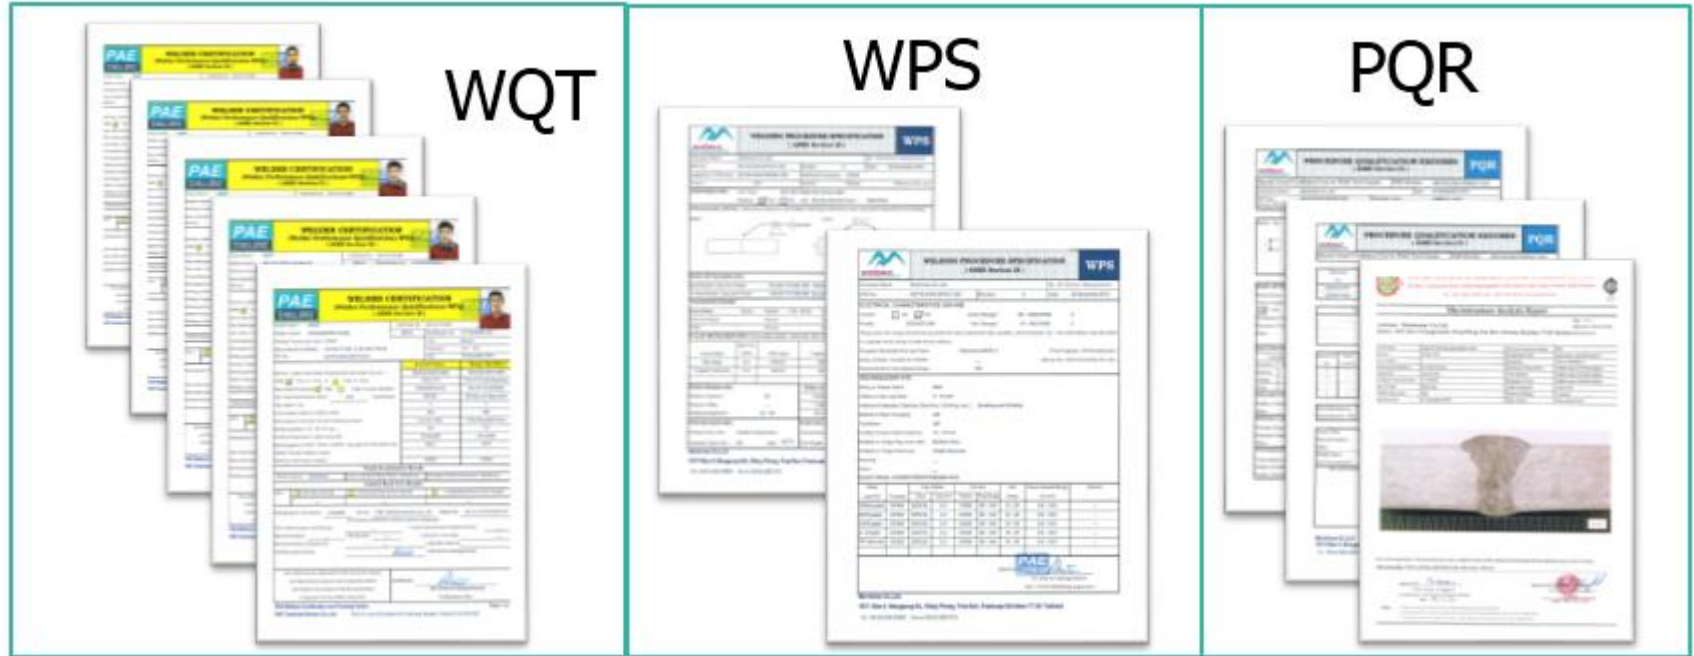

- ❖ **AutoCAD**: use for design our equipment and shop drawing
- ❖ **PV Elite**: use for our calculation and design for Vessel & Heat exchanger
- ❖ **CADWorx** : use for piping installation
- ❖ **Siemens NX** : use for CAM
- ❖ **Microsoft Project** for controlling the delivery time.

All of them can help us have the accurate and precise results. The design is optimized to give the shortest Return on Investment (ROI) time and to guarantee the plant performance.
